

I have been informed by Si Khan, Local Area Co-ordinator at BCC, that Traffic Management have unfortunately not yet carried out this review. However a meeting has been set up for this Thursday, 26th March, with the contractor with a view to obtaining a drawing of a pictorial sign, as agreed at the site meeting, which can then be sent to the Department for Transport for authorisation. It can take between 6 to 8 weeks before authorisation is granted by the Department for Transport.
